

**Sub: AWARDS AND ACCOLADES IN ACADEMICS AND ROBOTICS**

Dear Parent,

The exceptional performances of our students in the academic domain is worthy of school wide recognition and celebration. It is a testimony to the efforts put in by the students and their teachers that have resulted in these outstanding results that need to be applauded.

Academic Test	Awards
<b>World Class Tests in Mathematics</b> are designed for the top 10% of upper primary and lower secondary students in mathematics and problem solving. The tests comprise paper- and computer-based questions. They require students to apply creative thinking and logic by demonstrating their ability to process and respond to unfamiliar information and communicate their thought processes coherently.
