**THE KINDERGARTEN STARTERS
CIRCULAR
Innovative School of the Year Award**

09/05/2017

Dear Parent,

The Kindergarten Starters continues its successes this year being recognized as the Innovative School of the Year 2017 by GEMS Innovation and Research Development validating all the innovative practices undertaken by the school over the last few years. Innovation is a part of the National Agenda and KGS is proud to be leading the way.

Our Action Research of Creating Communities of Innovation with Harvard Graduate School of Education- Project Zero is reaching a culmination and we have been invited to Pittsburgh, Pennsylvania to present the impact of our research on student learning at the Kindergarten Starters. This is indeed a great honour for us and a global platform to share our learning with educators from all over the world.

We will continue to enrich learning approaches at The Kindergarten Starters so that our children benefit from the most current practices in education. We are proud of our parent community who continues to support Innovation and this award is as much a recognition of your support as it is of the hard work of our students and teachers.

Thank you for your ongoing support that enables our school to succeed time and again.

Thank you.

Regards,

**Asha Alexander
Principal**
