

My Learning – Parent Mobile App Guidelines

Mobile Access

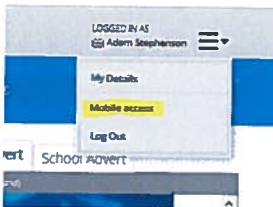

GEMS has launched the My Learning (Fusion) Parent App by which you as parents can now access your child's My Learning Parent portal directly through your phones.

School Newscasts, Teacher newscasts, feed, Homework, Calendar alerts etc. will set off push notifications (as set and decided by the school).

If given a choice, you can modify the notifications to suit your preferences.

Steps involved are

1. Select a browser and go to www.gems.ae
2. Log in using ML credentials (as sent to you by email by the school. It's the same as the Oasis ID)
3. Click on Menu on the top right hand side and choose "Mobile Access"

4. The instructions are given for Android and Apple users.
5. Enter the code which appears for you (the below is only an example). Refresh the code if you require to install the app for multiple users.

Mobile access

#1 - Get the App

You can download the latest version from the Google Play or App Store by searching for "My Learning LK"

#2 - Your App ID

pa3336agc - 97399

6. You can check notifications related to all your children in the school by clicking on 'Notifications' and change your notification preference by clicking on the cog wheel

Thank you.
Regards,

Asha Alexander
Principal
