

THE KINDERGARTEN STARTERS

KGS / C/ 873-17

CIRCULAR

12/11/2017

Dear Parents

Close on the heels of our wonderful achievements in football, our students, both boys and girls have made their foray into the world of badminton. Our under 9 and Under 11 girls placed second in both the doubles finals and our under 9 boys came in second for both the singles and doubles at the GEMS Inter School Badminton Championships. We are fortunate to have committed coaches like Sunil Sridhar and Hima Yogesh training our students to greater heights as shuttle

The Carnival of Giving was a huge success, hosting 32,000 visitors helping us raise funds for Dubai Cares to educate under privileged children. This would not have been possible without your generosity of spirit and your whole hearted support of all we do at school.

The Flag day was celebrated with fervor with all our 5300 students forming the letters UAE, waving flags and singing the Nations anthem to express our solidarity with this country which is home to all of us as expatriates.

Our Grade-5 students have won the Technbizad competition at Winchester School, Jebel Ali. The theme was 'Healthcare' and our students came up with the idea of a Health Pod. The Health Pod is a small clinic for busy people who generally avoid regular health checkup. One of the Judges from Aster Clinic said they would take this idea and develop it further. We thank our Chief Digital and Innovation Officer, Bhawna Sajnani and her team for guiding our students to achieve this success.

The 30x30 fitness challenge saw all our staff and students take part in Yoga, Karate, Zumba, Aerobics, Cricket, Football, Badminton, Basketball and a variety of games and will include the KG1 Sports on 13 November.

We continue our Charity Drive by collecting items like old clothes, canned food, blankets, buckets and mosquito nets to be sent through the Red Crescent to help the Rohingya refugees in Bangladesh. We look forward to your contribution to enable their rehabilitation.

85 classrooms in Grades 1-5 have been equipped with Clevertouch Screens at a cost of 1 million AED that enables students to experience the transformative effect of a touchscreen in the classroom. The Clevertouch screen has its own internal app store that engages and excites children in ways that are so natural to them there is no barrier between the technology and their learning.

At The Kindergarten Starters, we are committed to bringing you the most advanced technology and learning experiences to enable students to be the best they can be.

We look forward to your presence in the school as we continue the Open Door program and would like you to experience how learning is shaped in our classrooms.

Warm regards,

Asha Alexander
Principal
