THE KINDERGARTEN STARTERS - DUBAI
CIRCULAR

15/01/2018

Dear Parents,

At KGS, student's health and safety is our first priority. To ensure the same and in order that students are attended to according to their need, it is imperative that the school clinic is updated with any history of known illness with regards to your ward. Even if your ward has had a single instance of convulsion in the past history, kindly visit the school clinic and share the details with the school doctors so that immediate action can be taken at times of emergency.

Thanks for your support and cooperation.

Warm regards,

Asha Alexander
Principal
