**THE KINDERGARTEN STARTERS - DUBAI**  
**CIRCULAR**

26/02/2018

Dear Parents,

You will agree with us that immunization of your child is a good health investment. As a responsible parent you need to ensure that your child receives all the currently recommended vaccines at the right time.

Your child is now 5 years old and is expected to have taken the following vaccination.

1. BCG at birth
2. DTP and Polio (5 doses including 2<sup>nd</sup> booster)
3. MMR (2 doses)
4. Hepatitis B (3 doses)

If your child has not taken any one of these vaccinations, we recommend that you contact your family physician or the primary health centre.

Kindly be informed that children below 6 years have to get DPT Vaccine from any primary health centre. TD Vaccine is given in school from 7 yrs.

Please submit **only the photocopy** of the updated vaccination card to the clinic on the orientation day of Grade 1.

Thanking you.  
Warm regards,

---

Asha Alexander  
Principal
