

Dear Parents,

Our school is beginning a unique venture for each child to create his or her own pot on a potter's wheel and then fire it in a kiln on the school premises during their art or activity period. The student will then be able to fill soil in the pot and plant a seed or plant of his or her choice to create an organic garden for each section.

This pot can then be taken home after a few days for the child to maintain a record of the growth of his/ her plant. If you are interested in this project, please send AED 20/- with your child in a sealed envelope addressed to the class teacher.

Thanking you.  
Warm regards,

**Asha Alexander**  
**Principal**

**ACKNOWLEDGEMENT SLIP**

I am sending AED. 20/- with my child \_\_\_\_\_ of Grade \_\_\_\_ Section \_\_\_\_ for the potter's wheel activity.
