

Ask not what your planet can do for you, ask what you can do for your one and only planet - EARTH!

LET US THINK, TALK AND ACT CLIMATE!

Dear Parent,

You will be surprised that even during this summer break, we have been thinking, talking and acting on how we can reduce our carbon footprints and leave behind a safe and healthy planet for all our children. Over a hundred staff members have already been accredited as the United Nations Climate Change Teachers led by our Principal, Mrs. Asha Alexander – the first Principal in the UAE to be certified as a Climate Change Leader.

We would like to open up this golden opportunity to all our parents, who have always supported us in all our sustainability initiatives. Please click on the link below to access the free E LEARNING COURSE offered by UNITED NATIONS Climate Change (UNCC)

<https://uncclearn.org/course/index.php>

All you need to do is set aside two to three days of your time to register and complete the following five mandatory courses:

1. Children and Climate Change
2. Cities and Climate Change
3. Climate Change International Legal Regime
4. Human Health and Climate Change
5. Gender and Environment

You can complete as many courses as you like at your own pace after completing these mandatory courses to receive your accreditation from UNCC.

With all our staff, students and parents on board, we will be the first school in the world to lead Climate Change!

We sincerely hope that many more staff and parents will earn their certificates and champion climate change at home, school and the wider world. Do write to us and send us your certificates. Together we shall celebrate this learning.

Happy learning and impacting the world around you!

With best wishes,

The Climate Change Leaders from KGS
