

**THE KINDERGARTEN STARTERS - DUBAI**  
**CIRCULAR**

KGS / C/ 177-19

17/09/2019

Dear Parent,

As the world's first School with 300 UN accredited teachers and with more than 60 parents on board, it is time to ACT!

As you are aware under the banner of 'Plant a Legacy' each one of us at KGS has pledged to plant 15000 trees before March 2020. We have already planted 445 trees last week. While this campaign continues, we would like to once again reiterate the 6Rs- Reuse, Reduce, Recycle, Refuse, Rethink and Reform. We need to role model and exemplify the 6Rs as much as we can so that our children are able to live these values that are crucial to preserve our planet for the generations to follow.

We have kept aside a few days of the week so that we could consistently recycle all that we can. Here is something that you and your children can remember so that collectively we can help build a sustainable tomorrow! Please send the following waste materials for recycling on the specific days mentioned.

SUNDAY	PLASTIC BOTTLES
TUESDAY	E-WASTE
THURSDAY	NEWSPAPER

A specific area has already been designated to collect the recyclable waste materials. Soliciting your wholehearted co-operation and support in this collective endeavor.

Thanking you.  
**Warm Regards,**

**Asha Alexander**  
**Principal**
